---

## PROFESSIONAL SUMMARY

Full-Stack Software Engineer focused on rapid improvement and self-guided learning. Adept at developing efficient software solutions, streamlining operations, and leveraging technical expertise to drive system improvements and enhance business processes.

## SKILLS

**Languages & Frameworks:** Python, JavaScript, TypeScript, React, SvelteKit

**Tools & Platforms:** Linux, Google Cloud, CI/CD, GitHub Actions, Version Control, NoSQL, Google Apps Script, Excel/Google Sheets, Unity/Unreal Engine, Arduino

**Professional:** Software Development Life Cycle, Scrum, Agile, Project Management, Data Analysis

## EXPERIENCE

### **Integrity Marketing Group, Kennesaw, GA** – Full-Stack Software Engineer

FEB 2024 – PRESENT

- **SaaS Development:** Engineered and deployed a unified lead distribution SaaS ([app.leadconex.org](http://app.leadconex.org)) using **TypeScript/React**; scaled from first commit to dozens of users in five months.
- **Database Migration:** Led the migration of **150,000+** records from disparate spreadsheets to a centralized **NoSQL** database (**MongoDB**).
- **Automation & Scalability:** Modernized business systems through automation initiatives, reducing daily manual processes from hours to minutes.
- **Workflow Architecture:** Built and managed hundreds of automated workflows using **Zapier** and **GoHighLevel**, integrating disparate marketing tools into a cohesive lead-management system.
- **Infrastructure:** Built **CI/CD** pipelines to automate the deployment of web applications to **Google Cloud**.
- **Reporting:** Developed automated reporting systems with **Google Apps Script**, enabling real-time tracking and saving **thousands** of dollars per month in billable items.
- **Agile Leadership:** Self-managed projects within a two-person team using **Scrum** and **Agile** methodologies to improve delivery times.

## **RangeWater Real Estate, Atlanta, GA** – Marketing Representative

APR 2023 – FEB 2024

- **Process Optimization:** Implemented software and basic coding skills to increase efficiency in work processes.
- **Data Management:** Managed comprehensive property operations and vendor relations while utilizing **Microsoft Excel** to organize and track high volumes of resident and vendor data.
- **IT Support:** Handled introductory IT responsibilities, including hardware/software **troubleshooting** and employee training.
- **Awards:** Awarded ‘**Ultimate Leaser**’ title and regularly lauded as the top performer for sales and marketing strategy implementation.

## PERSONAL PROJECTS

### **Portfolio Website, SvelteKit** – `agnikas.dev`

<https://github.com/agnikas07/portfolio-site>

Built a passion project using SvelteKit and Vercel. Utilizes **Google Firestore** for visitor data and features a physics engine powered by **Matter.js**.

### **SteamBot, Python** – *Discord Bot*

<https://github.com/agnikas07/SteamBot>

Developed a Discord bot using **discord.py** and **Google Sheets/Steam APIs**. Hosted on an **Ubuntu Oracle Cloud VM** managed as a **systemd** service.

### **Sales Engagement Bots, Python** – *Discord Bots*

<https://github.com/agnikas07/winBot> –

<https://github.com/agnikas07/DisruptionGroupBot>

Created **Python**-based Discord bots integrating **Google Sheets (gspread)** and **Pandas** for performance analysis. Channel onboarding assistance handled through **LLM** integration. Deployed on Linux with **GitHub Actions CI/CD**.

## EDUCATION

### **Sequoyah High School, Canton, Georgia** – *High School Diploma*

AUG 2011 – MAY 2015

Excelled in **computer science** electives, including introductory and **programming fundamentals** courses, and **JavaScript** courses.

### **Kennesaw State University, Kennesaw, Georgia**

AUG 2015 – MAY 2019

I studied psychology, which I leveraged to improve my **customer-facing** skills and **UI/UX design** abilities.
